

External OCB System

JS790-OCB

Knowing that everyone is looking for creative ways to maximize square footage dollars, ERC has generated a solution centered on the innovative, optional software feature of the new Panasonic JS7900 workstation.

Unlocking this feature enable the use of a rear LCD display to function as an Order Confirmation Display. This display becomes a selling tool for you to improve order accuracy, increase speed of service, and display suggested add-on purchases and promotions.

The ERC Total Order Confirmation Solution combines the Software, 15" LCD Monitor, Mounting Bracket, VGA Cable and Clear Acrylic Splash Cover into a compact, profit-producing solution.

OPTIONAL SOFTWARE FEATURE

This feature makes it possible to add an LCD Display to your Panasonic JS7900 workstation and become an Order Confirmation selling tool. Not only does this result in increased order accuracy but will also influence your speed of service. The ability to utilize custom bit maps influences sales by displaying promotional and advertised items on the same screen with the customer's order. ERC part number is 79-ULCODE

DIMENSIONS Panasonic® JS7900:
13"H x 9"W x 9.88"D

DIMENSIONS (7900, external LCD, Bracket & Splatter Shield):
13.9"H x 13.6"W x 16.5"D

To complete this setup, a 1' VGA cable is included. This cable is used to connect the JS7900 workstation to the rear LCD Display. ERC Part number is 881.1VGA

P01.15FPD FLAT PANEL MONITOR

The Flat panel monitor that is offered by ERC is used in various locations throughout your restaurant. Because it is a flat panel display, it takes up less room than your old style CRT monitor and displays your orders more clearly. With the latest technology now available with the new Panasonic JS7900 workstation, it can also be used as an Order Confirmation Display at your front counter or drive-thru.

Below are the specifications of the current LCD monitor being provided:

- TYPE: Flat Panel Display/ TFT active matrix
- SURFACE: Anti-reflective coating
- DISPLAY AREA: Diagonal 15" display
- RESOLUTION: 1024 X 768
- CONTRAST RATIO: 450:1
- VIEWING ANGLE: 130 Horizontal/ 110 Vertical
- DIMENSIONS: 13.9"H x 13.6"W x 6.3"D
- CABINET DEPTH: 6.3"

MOUNTING BRACKET FOR THE FLAT PANEL MONITOR

When taking advantage of the Panasonic JS7900 workstations' ability to utilize the Flat Panel monitor as an Order Confirmation Display, it becomes necessary to incorporate the ERC mounting bracket to hold the monitor in position for maximum effectiveness. This bracket is made of a single piece of 1/16" thick steel, painted black, and shaped to the finished dimensions of 9" W x 11 1/4" D x 11"H. The mounting plate has been designed for several VESA mounting patterns. The ERC part number is 850.79-LCDB.

CLEAR ACRYLIC SPLASH COVER

The benefits of utilizing the LCD Flat Panel Monitor as an Order Confirmation Display are endless. You have the ability to display the customers' sale but you also have the ability to use part of the screen to display current promotions, add-on items, employment needs and more. ERC has looked beyond this.

Having been in the POS industry for more than 25 years, ERC anticipated the problems that might develop by placing an LCD Flat Panel Monitor in the front counter area. Spilling drinks on the monitor, grease and dirt getting into the vent area and even the customers' direct contact are only a few of the possibilities. ERC has designed a 1/8" thick acrylic splash cover to combat these issues. This cover is 11 3/8"H x 2 7/8" D and the ERC part number is LCD-CVR.
