

ERC

Uniwell Now Integrated with

Maxtel

software solutions

DataSmart™

DataSmart™ is an easy to use reporting program which links into the Point-Of-Sale system. Access via the internet allows you to review and compare comprehensive business reports at any time, from anywhere.

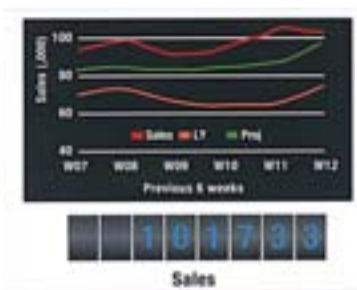

Access to comprehensive reports

... Or drill down into the more detailed spreadsheets to analyze and understand the raw data. Use this to make timely decisions to reduce costs and increase profits based on what is actually happening in your business each day.

5min daily review tool

The DataSmart™ Review is a one page summary which allows you to quickly see how your business is tracking in terms of costs, sales and profit on a daily basis.

Easy to understand and use

Check out your sales graph to see how well you are tracking over time...

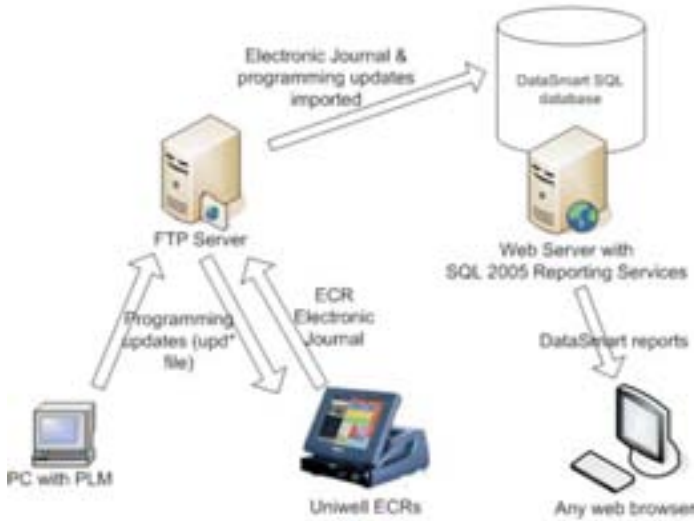

Information when you want it

Just log on to your site from wherever you are and access all your Point-of-Sale information in simple to understand report formats.

DataSmart™
